THE EVENING NEWS.

old case came off this morning in this city ordinance No. 83, in selling and excourt. A portion of the testimony was posing for sale on the sidewalks, goods decidedly rich, and to "ears polite" would and merchandise. Freeman was dishardly do for our columns. [To "ears deaf" it is just the thing.] In the upper end of Gold Hill, there seems to be a kind

Joseph Richardson, a "culled pusson,"

Joseph Richardson, a "culled pusson," of "Tipperary neighborhood," where arrested by special officer Balloe for fighttongues wag a little more than they should-and the wagging whereof seems not to be altogether considered in the light of waggishness-but rather tending to serious reflections upon the moral character of some folks. In the neighborhood referred to above, there reside two ladies, evidently Italians, who have recently spoken disrespectfully of another lady resident close by them, whose name is Sheehan, whose place of nativity is county Tipperary, in the ancient province of Ire-land. The neighbors of Mrs. Sheehan, two ladies who are respectively named O'Connell, on last Saturday, took occasion to remark to a gentleman whose cabesa " had no wool where the wool ought to grow," that the aforesaid Misthress Sheean was not a "bit bether nor she ought to be, and hadn't been from her infancy This delicate hint was interlarded with sundry wags of the tongue, which sometimes cause difficult suits for slander, Misthress Sheehan, as any other virtuous woman from Tipperary, could not stand under such slanderous whispers. and she accordingly repaired to the premises of the aforesaid O'Connell family to demand a retraction; but the O'Connells would not retract. On the contrary, they repeated the language, and added that the O'Connells never "took it back." This caused Mrs. Sheehan to wag her tongue a little-and also to "let fly from the right" a huge boulder, the size of a piece of chalk, which came mighty near battering down the door of the domicil of the innocent O'Connell family. Another stone was hurled by the infuriated Misthress Sheehan, which unfortunately struck the corner of the domicil andbounded back. (Stones—the what was the matter.) The O'Connei v had this Misthress Sheehan arrest. morning at 10 o'clock, the wione matter was tried before Judge Robinson, the trial being by jury, and in the presence of a large and fun-seeking audience.

Sentence will be passed at 10 o'clock to-MARY QUEEN OF SCOTS CO .- This American Flat road. This tunnel is now about seventy-five feet long, it having been run that distance since the claim was located last March. It was commenced tion into the hill. It has been run in an alluvial formation for about sixty feet, but the remainder of the way has been in a kind of granite which is broken up, and has seams through it, so that the miners oh no! we reckon not. can work it out very well without blasting. The tunnel is a short one compared with most of those which have been run

Had it not been for Downey, a most serious fight would undoubtedly have resulted .- Piute.

OUT OF PLACE. - We noticed a new mowing machine standing in front of the American City Store, at American City yesterday. At first we could hardly believe our eyes, what on earth could be the use for it here, where there was not an acre of grass growing within ten miles, much more a meadow to mow. a closer examination proved that we were not. It was a veritable mowing machine, such as are used in the East to mow the thousands of acres of meadow land. On inquiry we found that the man who owns it is a rancher, and designs to take it over to Washoe Valley to use in having.

Runaway.-Yesterday, about 5 o'clock r. M., a span of carriage horses, belonging, we are told, to Mr. Davis, of the Ophir, while standing attached to a carriage in front of the International Hotel, took fright and dashed down C street among the heavy teams, demolishing the carriage and adding to their fright. They continued their wild race with the forward wheels, all that remained of arriage over the Divide and down agh this place, and were finally stopped by Mr. Jocelyn, at the Union scales, who took them to his stables, where they were kept until called for by their owner.

THE MARY ANN COMPANY .- The stockholders of this company will no doubt be pleased to learn that their President left this morning for San Francisco to bring over the new machinery for the hoisting works on the mine. The company has a spacious building already erected suitable for the reception of the machinery which is to be procured, and everything in readiness to receive the machinery when it arrives. The shaft is down to the water level and in the ledge, and as soon as the company procures its machinery and gets it ready for operation it can take out pay rock in large quantities.

THE Crown Point Company has driven Opposite Bank Exchange, Gold Hil Wholesale and Retail Dealer in its new drift about forty-nine feet since it was commenced a couple of weeks ago. The greater part of the way which it has been run has been in hard blasting rock, but the drift is now coming into softer formation, and one which contains a great proporcion of quartz. The drift is now very near the ledge and will probably reach it in a few days.

REMOVAL. - Charles W. Young, the Jeweler of Virginia has changed his base of operations to the store, No. 6 South C This strategic movement will bring his splendid stock of goods under the eyes of a much greater multitude than the old location on B street.

RECORDER'S COURT, VIRGINIA. - C. Freedman and E. Gabriel, arrested by POLICE COURT, GOLD HILL .- A high officers Clancey and Soule for violation of ing with another colored individual was fined and paid \$20. M. Demory, arrested by officer Downey for fighting forfeited his bail of \$30. John Roberts, arrested by officer Soule for being drunk and sleepng on the sidewalk was fined and paid 825. Phillip Sullivan, arrested by officer Hanks for being drunk and sleeping on the sidewalk was fined and paid \$15. Madame Navarro, a Spanish woman, arrested on complaint of Madame Monvas for participating in the innocent amusement of throwing rocks through the windows of the latter named Madame, forfeited her bail in the sum of \$25. Antonio Bego, arrested by officers Green and Lawton, for furious riding through the streets, was fined and paid \$75. Charles Smith, arrested by officers Green and Lawton, for furious riding through the streets, was fined \$75, and not paying, was committed to the city jail for thirty-seven days. Sam Patch, who, by the way, is a relative of the Doe family, arrested by officer Wilcoxson, for being drunk and taking a nap on the sidewalk, pleaded guilty and was fined \$15, and in default of payment was committed for seven days. Civil Docket: In the matter of George D. Crocker vs. Mrs. G. W. M. Cowles-an action in unlawful detainer; notice and undertaking on appeal were filed. J. Gaus & Co. vs. A. Steinbach-action on account; judgment for plaintiffs for \$100 and costs. Kate Spies vs. McCoy-action on account; notice and undertaking on appeal filed. Same vs. Same - notice and undertaking filed. People vs. Anselino, for violation of city ordinance No. 14; case continued till 1 р.м. of this day. Civil Docket—Goodman & McCarthy vs. Virginia and San Francisco Copper, G. & S. M. Co.; judgment by default for plaintiff.

ATTEMPTED INCENDIARISM .- Last evening, at about nine o'clock, a fire was discovered in the rear of the Burnham House, which, had it obtained any headway, undoubtedly would have produced a most serious conflagration. After the fire was most required the presence of an interpreter, as it certainly did the whole police force to "keep order in court." The been whittled up fine, sprinkled with alcase was prosecuted by S. A. Kellogg, and defended by W. W. Bishop. The charge against Mrs. Sheehan was disturbcohol, and piled up against the side of the building, and was, undoubtedly, the work of a would-be incendiary. Suspicion points very strongly to certain parties, who, if caught, should be severely dealt ing the peace, in throwing stones, etc.; and the verdict of the jury was-that the

HEAVY SHOWER .- We were visited today by a heavy thunder shower, which, commencing with the fall of a storm of hail-stones that was heavy on the horse and mule population, subsided into a company's claim was located in March of drenching rain that soon made Broadway the present year, and contains 1,400 feet. navigable for all sorts of loose lumber. When the music shall rise "with its voluptuous swell, soft eyes will look love to eyes that speak again," and there won't be any lager beer at hand, in case of emergency—
